SACRAMENTO LOCAL AGENCY
FORMATION COMMISSION

Subject: Amendment of the Sphere of Influence for the Sacramento Municipal Utility District
and Annexation

Dear Mr. Brundage:

The Yolo-Solano Air Quality Management District (District) received a copy of the Draft Environmental Impact Report (DEIR) for the above referenced project and appreciates the opportunity to review and offer comments. As a commenting agency, the District can facilitate meaningful public dialogue of the project's environmental consequences by determining the adequacy of the air quality analysis. With incorporation of the following information, we consider the comprehensive air quality analysis complete. The District does not believe that our comments would change the air quality analysis' conclusions or significance determinations. The following are minor clarifications that are pointed out for clarity of the document:

1. **District Ambient Attainment Status** - The information in Table IV.C-1 is not correct regarding our District's attainment status for the PM10 Federal Standard. The District is in "attainment" for the federal PM10 standard. The document is correct for the status of the Sacramento Metropolitan Air Quality Management District.
2. **Recent State Implementation Plan (SIP) Activities** - The air districts in the Sacramento Federal Ozone Nonattainment Area have held public hearings and have now adopted the 8-hour Rate of Progress (8-hr ROP) plan. The 8-hr ROP is currently under the U.S. Environmental Protection Agency's consideration for approval.

The District appreciates receiving the DEIR and the opportunity to provide our comments. If you require additional information, please contact me at (530) 757-3665.

Sincerely,

Paul Andrew Hensleigh
Deputy Air Pollution Control Officer
